HALLOWEEN SAFETY

Trick-or-treating

Don't go trick-or-treating if you are feeling ill, even if symptoms are minor.

Choose costumes that allow a non-medical mask to be worn underneath. Make sure you can see and breathe comfortably.

Only trick-or-treat with those who live in your household.

Carry hand sanitizer and use it after touching *touch-points* like doorbells or railings.

If you can, knock instead of pushing doorbells, or simply yell 'trick-or-treat.'

Consider pre-arranged stops/visits to family/friends.

Wait until you're home and have washed your hands before handling or eating candy.

Avoid handling treats:

- Use prepackaged treats (no homemade treats).
- Don't leave self-serve bowls or bulk candy.
- Make candy bundles/bags and space them out on a table or blanket for trick-or-treaters to take.

Get creative!

- Build a candy slide down your front steps or railing!
- Build a (safe) catapult!

Handing out candy

Don't hand out candy if you are feeling ill, even if symptoms are minor.

[Print posters from APH](#) to hang in your window or place on your door to let trick-or-treaters know if you're handing out treats.

Wear mask and consider using tongs or a grabber to hand out candy.

Always keep a healthy distance of 2 metres from trick-or-treaters.

Be more outside than inside. If you can, stand outside your door to hand out treats.

THERE ARE MANY FUN WAYS TO HAND OUT TREATS WHILE MAINTAINING PHYSICAL DISTANCING

You will find two included posters that we encourage households to utilize this HALLOWEEN. The posters can also be found at www.algomapublichealth.com along with more HALLOWEEN SAFETY TIPS.
